alternative

Sterilization
efficiency
99.9%

Small, portable,
USB chargeable

Low power
consumption - **lasts
up to 30 days**

Product use

- 1 Low mode GREEN: interval 5min work + 25min standby
- 2 High mode BLUE: interval 10min work + 20min standby
- 3 Mode RED: low battery / stand by
- 4 Device produce temporary disinfection power without additives
- 5 Eliminates microbes at 99.9% efficiency
- 6 Safe for the user and for the environment

Product specifications

Product	Multi-purpose Air Purifier
Product model #	OS100293
Capacity	Up to 10 m ³ spaces
O ₃ output	Ozone diffused into air 1mg/h
Size	dia 50 x 108 mm
Weight	218g
Power Input	DC 5V 1A
Working temperature	-10°C to +50°C
Battery charging time	4-6h
Running hour	low mode GREEN: 3 weeks high mode BLUE: 2 weeks
Warranty time	12 months
Certificates	CE / RoHS / FCC / EPA
